

# AIRIS

THE KAYAK IN A BAG

Introducing the newly designed Airis™, a revolutionary line of inflatable kayaks by Walker Bay®.

Airis Kayaks are redesigned for 2012 to be even lighter and more compact than even before. Providing rigidity and durability through AirWeb™ High Pressure Patented Construction, Airis Kayaks are tear and abrasion resistant, quick to inflate, simple to use and so portable, they roll up to fit inside their own backpack (included). Now you can take fun with you wherever you go!

## Lightweight & Compact

Experience the freedom and high performance fun of kayaking, without the burden of an awkward hard shell kayak. Every Airis Inflatable Kayak comes with a custom AirPack™ backpack. Lightweight and easy to carry, the AirPack has comfortable padded shoulder straps and two sets of gear straps for your paddle and air pump.

Airis Inflatable Kayaks are made using AirWeb™ Patented High Pressure Construction (patent pending), formed from a heavy duty, seven layer polymer coated fabric that is joined inside by thousands of drop-stitch fibers.

## Play

Fun for Everyone. The Airis Play is amazingly lightweight, extremely stable and so quick to set-up so you'll be on the water in no time. The shorter length of the Play makes it easy to maneuver whether you are exploring coves, or tackling whitewater, while the shape of the hull provides incredible stability and comfort.
