**WALKER BAY** 

***WALKER BAY***

Simply Smart.

### **LIGHT WEIGHT & EASY TO HANDLE**

Easy for one or two people to load, carry and launch.

### **DURABLE & MAINTENANCE FREE**

All boats are molded from a super durable High Impact Marine Composite material and are backed by a **10 YEAR HULL WARRANTY.**

### **INCREDIBLY VERSATILE**

Products are designed to be flexible whether you row, motor, sail or tow.

## **SIMPLY SMART.**

Walker Bay® is a company with one single goal - to bring the pleasure of boating to people around the world. To achieve this, we have created a line of practical, easy-to-handle boats so you can get out on the water.

Using high-pressure injection molding as the optimum manufacturing process, Walker Bay has succeeded in producing truly versatile, exceptionally crafted boats that are made to last.

## INNOVATION AND DESIGN

For over ten years, Walker Bay has combined functional innovation, advanced engineering and diligent attention to detail to create a line of award winning boats that make life easy for all kinds of boaters.

## PRACTICAL EXPERIENCE

Paolo Rista, Walker Bay's head designer, combines talents as an international boat designer with hands-on knowledge and expertise of a high performance sailor.

## SUPERIOR TECHNOLOGY

Walker Bay uses high-pressure injection molding as the optimum manufacturing process due to the precision and quality of finish attainable. The end result is a seamless, durable hull that is backed by a 10 year warranty.

## HANDS ON QUALITY

Through our unique molding process and hands on fine finishing, Walker Bay assures you of the finest in quality.

## ENVIRONMENTALLY FRIENDLY

Walker Bay's injection molding process is environmentally friendly and uses recyclable materials. So in addition to being durable and virtually maintenance free, your boat is one you can feel good about owning.

### ROW IT

Hydro Curve oars with collars are included.

### MOTOR IT

Integrated motor mount makes adding a motor easy.

### SAIL IT

Add one of our performance sail kits.

## RIGID DINGHY.

Walker Bay's Rigid Dinghy offers a fun, practical boat that is lightweight, easy to handle, expertly engineered and requires no maintenance other than simple cleaning. With a virtually indestructible High Impact Marine Composite (HIMC) hull, Walker Bay boats are perfect for boating with family, a day of fishing or loading up as a tender.

## FEATURES.

Smart, functional & versatile.  
As with every Walker Bay boat,  
the true beauty is in the details.

### EASY TO TRANSPORT

Light weight and easy to handle, these boats are a cinch to car-top or throw in the back of a truck.

### WHEEL IN THE KEEL™

Launching your boat is a breeze with the integral Wheel in the Keel™.

### INTEGRATED ROWING SYSTEM

Walker Bay's Integrated Rowing System features Hydro Curve oars, oarlocks & collars.

# WALKER BAY 8 RIGID DINGHY

www.walkerbay.com

**MODEL:** WB 8S  
**BEAM:** 4'4" / 132 cm

**LOA:** 8'3" / 251 cm  
**WEIGHT:** 71 lbs / 32 kg

**MAX HP:** 2 hp  
**CAPACITY:** 2 Persons

**STANDARD FEATURES:**

- One-piece HMC hull
- Seats with positive flotation
- 6'6" Hydro Curve oars

- Wheel in the Keel™
- Steel back oarlocks
- Stainless steel bow eye
- One way drain plug

**ROW. MOTOR. SAIL. TOW.**

Maximize your fun: add a Tube or a Sail Kit.

**\*OARS INCLUDED**

Gray seats also available.

Weighing only 71 pounds the Walker Bay 8 is easy for one person to handle in and out of the water. Its light weight and innovative features like the Wheel in the Keel™ make it perfect for people who want a boat they can transport easily.

# WALKER BAY 10 RIGID DINGHY

www.walkerbay.com

**MODEL:** WB 10F  
**BEAM:** 4'9" / 145 cm

**LOA:** 9'8" / 295 cm  
**WEIGHT:** 126 lbs / 57 kg

**MAX HP:** 3 hp  
**CAPACITY:** 3 Persons

**STANDARD FEATURES:**

- Includes all Standard Features listed for the Walker Bay 8 PLUS:
- 7' Hydro Curve oars

- Integrated non-skid cockpit floor
- Reinforced gunwale
- Adjustable rowing footrest
- Cup holders

**+** **ROW. MOTOR. SAIL. TOW.**  
Maximize your fun: add a Tube or a Sail Kit.

**\*OARS INCLUDED**  
Gray seats also available.

Boasting all the same innovative features as the Walker Bay 8, the Walker Bay 10 is roomier and comes with a reinforced gunwale, integrated cup holders, a non-skid cockpit floor and is rated for a higher horsepower motor and person capacity.

## RIGID INFLATABLE DINGHY.

Walker Bay's Rigid Inflatable Dinghy (RID) combines the best features of a reliable hard-shell dinghy with the stability and utility of an inflatable.

## EXCEPTIONAL COCKPIT SPACE.

Because of the large rigid hull structure with external tubes, the RID has exceptional cockpit space. Three comfortable seats provide secure internal seating for all passengers and greater cargo space.

TYPICAL INFLATABLE

RIGID INFLATABLE DINGHY

## INNOVATIVE DESIGN

The Variable Profile Design (VPD) tube is varied in both diameter and shape along the length of the boat to provide optimum performance and to act as a fender with a protective rub rail when alongside other boats or docking. Whether rowing, motoring or sailing, the VPD tubes provide added security to any water experience making the Walker Bay RID an ideal boat for all uses.

## HOW IT WORKS.

With a light load and moderate seas, the Variable Profile Design (VPD) tube does not engage and the bow cuts gracefully through the water. In heavier seas, with larger loads or as the load shifts, the VPD tube engages as required for lateral stability.

# WALKER BAY RID 275 RIGID INFLATABLE DINGHY

www.walkerbay.com

**MODEL:** RID 275  
**BEAM:** 5'8" / 172 cm

**LOA:** 9' / 275 cm  
**WEIGHT:** 89 lbs / 40 kg

**MAX HP:** 4 hp  
**CAPACITY:** 3 Persons

**STANDARD FEATURES:**

- Tube available in 1100 Decitex PVC (275R) or Orca® Hypalon® (275H)
- One piece HIMC hull

- 6'6" Hydro Curve oars
- 4 chamber tube
- 3 layer reinforced seams
- 4 easy grip handles

**+ ROW. MOTOR. SAIL. TOW.**  
Maximize your fun: add a Sail Kit.

**\*OARS INCLUDED**  
Model Shown: RID 275R  
Blue seats also available.

The RID 275 is the ideal boat for those who want the durability, cockpit space and lightweight features of the Walker Bay 8 but need the stability and greater horsepower rating that the 4 chamber tube provides.

# WALKER BAY RID 310 RIGID INFLATABLE DINGHY

www.walkerbay.com

**MODEL:** RID 310  
**BEAM:** 6' / 183 cm

**LOA:** 10'2" / 310 cm  
**WEIGHT:** 149 lbs / 68 kg

**MAX HP:** 6 hp  
**CAPACITY:** 4 Persons

**STANDARD FEATURES:**

- Tube available in Orca® Hypalon® (310H) or 1100 Decitex PVC (310R)
- One piece HIMC hull
- 7' Hydro Curve oars

- 4 chamber tube
- 3 layer reinforced seams
- 4 easy grip handles
- Non-skid cockpit floor

**+ ROW. MOTOR. SAIL. TOW.**  
Maximize your fun: add a Sail Kit.

**\*OARS INCLUDED**  
Model Shown: RID 310H  
Blue seats also available.

Boasting the same innovative features as the Walker Bay 10, the RID 310 also provides greater stability, capacity & horsepower rating. The ultimate tender for those who want a durable, versatile boat with dry internal seating, and a large cockpit area for cargo.

## SAIL KITS.

All Walker Bay® boats convert quickly and easily into sailing dinghies by using our straight forward sail kits. Designed to be rigged and on the water in just minutes, our sailing kits come complete with all lines, hardware and quality components required to harness the wind! Our boats have an efficient hull that glides along in light breezes while our moderate sail plan provides control for heavier winds. Whether you are a novice or advanced sailor, you will love the ease of sailing with a Walker Bay® Sail Kit.

### VANG CLEAT

The innovative Vang Cleat found in all Walker Bay® Sail Kits is simple, extremely durable and easy to use. Constructed of high-tech Polycarbonate material that fuses together several composites, it easily controls the shape of the sail with no moving parts.

### MAIN SHEET BLOCK

The blocks on all Walker Bay® Sail Kits are made from a composite construction making them extremely durable. Ratchet blocks shift smoothly from ratchet to free spinning modes. The cam on the 10 High Performance Sail Kit block (pictured above) releases instantly with a flick of the wrist.

### RUDDER BLADE

The new high performance rudder blade found in all sail kits combines a super durable composite glass-filled Nylon rudder head with a hydrodynamic lightweight aluminum foil. It also includes an easy to use universal articulating tiller extension which allows steering from various positions and is easily stowable within itself.

### DAGGERBOARD

A hydrodynamic lightweight aluminum foil was created for our new dagger-boards. Combining maximum stiffness, minimum weight, and maximum surface area on the daggerboard, enables our boats to point better when beating to windward while still maintaining speed.

8 Performance Sail Kit with Walker Bay 8 Rigid Dinghy

**MODEL: 8 PERFORMANCE PLUS**  
**SAIL AREA: 50 sq. ft. / 4.6 m<sup>2</sup>**  
**MAST HEIGHT: 14'8" / 4.47 m**

- Visibility window
- Battened mainsail
- 4 oz Dacron sail cloth
- 2 piece collapsible mast
- On/off ratchet block
- Retractable aluminum rudder
- Telescoping tiller extension
- Aluminum daggerboard
- Color coded lines
- \* FOR USE WITH RID 275

The 8 Performance Plus Sail Kit provides the optimum in sailing for the 275 RID boat. This rig comes with a battened high aspect sail profile and an aluminum daggerboard to optimize speed and upwind performance.

**MODEL: 8 PERFORMANCE**  
**SAIL AREA: 39 sq. ft. / 3.6 m<sup>2</sup>**  
**MAST HEIGHT: 14'8" / 4.47 m**

- Visibility window
- 4 oz Dacron sail cloth
- 2 piece collapsible mast
- On/off ratchet block
- Retractable aluminum rudder
- Telescoping tiller extension
- Aluminum daggerboard
- Color coded lines
- Flotation bag for added buoyancy

The Walker Bay 8 Performance Sail Kit comes with high end rigging features while still being easy to rig or break down and store. It is perfect for those who want performance while still keeping it simple.

# WALKER BAY 10 SAIL KITS

www.walkerbay.com

MODEL: 10 HIGH PERFORMANCE  
SAIL AREA: 60+25 ft<sup>2</sup> / 5.5 + 2.3 m<sup>2</sup>  
MAST HEIGHT: 16'8" / 5.1 m

- Visibility window
- Battened mainsail + jib
- 4 oz Dacron sail cloth
- 4 piece collapsible mast
- On/off ratchet block with cam cleat
- Color coded lines
- Retractable aluminum rudder
- Telescoping tiller extension
- Aluminum daggerboard
- \* FOR USE WITH RID 310

Turn your Walker Bay RID into a truly competitive sailboat. The 10 High Performance Sail Kit comes with a large sail plan and includes a jib for superior handling, increased speed and upwind performance.

MODEL: 10 PERFORMANCE  
SAIL AREA: 50 ft<sup>2</sup> / 4.6 m<sup>2</sup>  
MAST HEIGHT: 14'8" / 4.47 m

- Visibility window
- Battened mainsail
- 4 oz Dacron sail cloth
- 2 piece collapsible mast
- On/off ratchet block
- Retractable aluminum rudder
- Telescoping tiller extension
- Aluminum daggerboard
- Color coded lines
